Ensure a fault-free installation and avoid downtimes and additional costs

Installation through specialists on site

- Precise assembly plans
- Professional installation through trained employees
- Time-saving and safe
- At your service round-the-clock (including Saturday, Sunday and holidays)

Quick installation at your plant

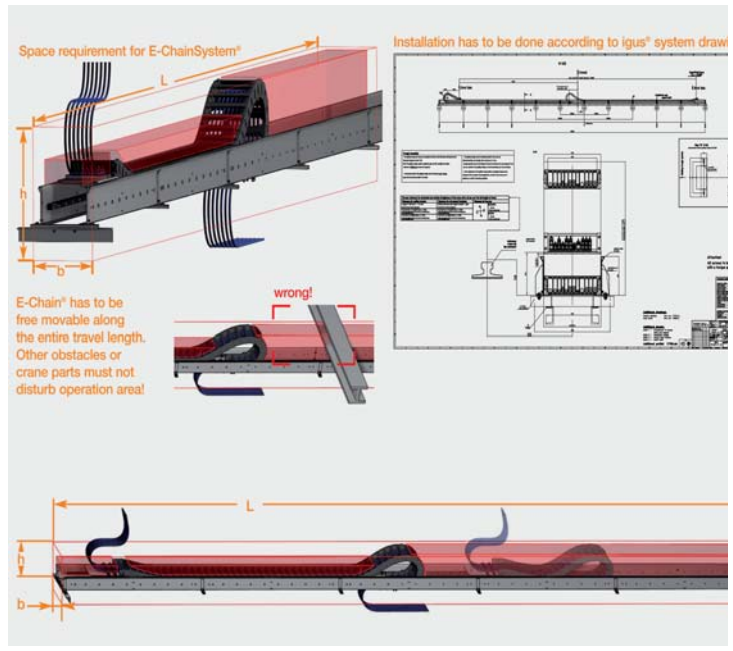

- Germany and worldwide
- Even in applications difficult to access
- Creation of delivery and installation concepts
- Regular maintenance service for a smooth operation

Installation service

Minimal costs... with the igus® E-ChainSystems® installation service

Preparation of proposal in 24 hours

- From concept plan up to the final details
- With complete parts lists
- Including construction of transport and installation aids as well as delivery
- Individual assistance from the purchase of igus® products up to installation

Acceptance report and guarantee

Global Warranty Certificate

Global warranty for _____

We hereby confirm the following warranty for the igus® E-ChainSystem® application described on the back page of this certificate:

For a period of 24 months upon delivery, we will ship replacement parts for any igus® components that fail due to wear and tear, free of charge (shipping ex works). This does not include failure due to mechanical impact and damage due to incorrect assembly. Shipping of replacement parts does not prolong the warranty period.

We reserve the right of inspecting the installed E-ChainSystem®, prior to its first operation.
